Andrés Zambrano Burgos

FullStack Developer | Data, Machine Learning & Applied AI

Pasto, Nariño, Colombia · +57 317 719 9202 · andresze2001@gmail.com · linkedin.com/in/andres_z8 · github.com/andresZam12

PROFESSIONAL SUMMARY

FullStack developer and final-semester Software Engineering student, passionate about **Big Data, predictive models, machine learning and data mining**. As a freelancer I built and run **Zabio**, an AI-agent SaaS already generating revenue with real clients, and I led the team that ranked **8th nationwide** in the Ministry of ICT's Datos al Ecosistema 2026 competition. I work with Python/FastAPI, Java/Spring Boot, Flutter and Next.js.

PROFESSIONAL EXPERIENCE

Zabio — AI-Agent SaaS for Businesses Platform · Backend · Frontend

Freelance Developer · Lead and sole developer · Present

- Designed, built and run in production a SaaS platform **already generating revenue with real clients**: non-technical businesses create AI agents that serve customers on WhatsApp and book appointments in Google Calendar.
- Async FastAPI backend with per-organization PostgreSQL **Row-Level Security**; Alembic migrations, pytest and Docker.
- Multi-provider LLMs (Claude, GPT-4o, Gemini) with prompt caching and **tool-calling** agents that check and book appointments.

Python · FastAPI · PostgreSQL · SQLAlchemy · Claude · GPT-4o · Gemini · WhatsApp Cloud API · Google Calendar API · Next.js · Docker

FEATURED PROJECTS

Predictive Labor Market Dashboard — Datos al Ecosistema 2026 (Ministry of ICT) Demo · Code

Project lead & Product Owner · team of 4

- Came up with the idea and led the team as Product Owner through sprints; we scored **91/100, 8th nationwide**.
- Designed a PySpark ETL pipeline integrating DANE, SENA and Ministry of Labor data into PostgreSQL, containerized with Docker.
- Forecast employment trends with time-series models (Prophet), visualized in Power BI and a Next.js app on Vercel.

Python · PySpark · PostgreSQL · Prophet · Power BI · Docker · Next.js

VeriFarmac — Medication Authenticity Checker APK · Code

Tech lead & AI developer · team of 2

- **Flutter and Dart** app that verifies medications with barcodes, OCR, AI vision and the INVIMA API (**trust score**).
- Built the AI layer (ML Kit and Claude API) and managed the product in GitHub Projects with Clean Architecture.

Flutter · Dart · Supabase · Claude API · ML Kit · Google Maps · Clean Architecture

Deplhoy — Automated AI Tech News Demo · Code

Lead and sole developer · own product

- GitHub Actions pipeline that collects news from 12+ sources; Gemini ranks and summarizes it with source traceability.
- Weekly double opt-in newsletter (Resend) that builds a tech subscriber base to share projects and services.

Next.js · TypeScript · Gemini · Prisma · Supabase · NextAuth · Resend · Upstash Redis

O.IR — AI Chord & Lyrics Detection Demo · Backend · Frontend

Lead and sole developer

- Detects chords and lyrics from YouTube, audio files or the mic; background processing (Celery, Redis), librosa and PDF export.

Python · FastAPI · librosa · Celery · Redis · Gemini · Supabase · Next.js

Other projects: MisFinanzas, personal finance app with an accounting basis (Spring Boot, Angular) · **Elliot AI**, AI sales agent (Node.js, React).

TECHNICAL SKILLS

Programming languages: Python, Java, TypeScript, JavaScript, Dart, SQL
Backend & databases: FastAPI, Spring Boot, Node.js, Django, REST APIs, PostgreSQL, MySQL, MongoDB, Supabase, Redis
Frontend & mobile: Next.js, React, Angular, Tailwind CSS, Flutter
Data & AI: PySpark, Prophet, multi-provider LLMs (Claude, GPT-4o, Gemini), tool-calling agents, ML Kit, librosa
Analytics & business systems: Power BI, Excel, Siigo, Microsoft Dynamics
Tools & practices: Git, GitHub Actions, GitHub Projects, Docker, Celery, Vercel, Scrum, Clean Architecture
Languages: Spanish (native) · English B2 in progress (English Adventure)

EDUCATION & AWARDS

B.Sc. Software Engineering — Universidad Cooperativa de Colombia · Pasto — In progress · final semester
Talento Tech — Software Development (intermediate) — Colombian Ministry of ICT
Basic Accounting & International Standards — Universidad Mariana · Pasto — Course
Winner, COMUNA-UCC Science and Research competition — 2024

PREVIOUS WORK EXPERIENCE

Customer Service Representative — Chicken Lilo · Pasto — 01/2024 – 10/2024
Analyzed sales and product performance with **Power BI and Excel**; built management reports and trained new staff.

Store Manager — Mundial de Mangueras · Pasto — 06/2020 – 07/2023
Managed sales, cash, inventory and staff with Excel-based controls; grew the client base and supervised stores in Cali.

Sales Supervisor — Surimportaciones SAS · Cali — 02/2019 – 03/2020
Administered, configured and maintained **Siigo and Microsoft Dynamics**; led sales and accounting after a merit transfer.
