Andrés Zambrano Burgos

FullStack Developer | Data, Machine Learning & Applied AI

Pasto, Nariño, Colombia · +57 317 719 9202 · andresze2001@gmail.com · linkedin.com/in/andres_z8 · github.com/andresZam12

PROFESSIONAL SUMMARY

Final-semester Software Engineering student and FullStack developer passionate about **Big Data, predictive models, machine learning and data mining**. I build products that bring AI and open data to real-world problems: I have led agile teams from idea to deployment and placed **8th nationwide** in the Colombian Ministry of ICT's Datos al Ecosistema 2026 competition. I work with Python, Java/Spring Boot, Flutter and React/Next.js, with hands-on experience in data analysis with Power BI and business systems (Siigo, Microsoft Dynamics).

FEATURED PROJECTS

Predictive Labor Market Dashboard — Datos al Ecosistema 2026 (Ministry of ICT) Demo · Code

Project lead & Product Owner · team of 4

- Scored **91/100 and ranked 8th nationwide** in the Ministry of ICT's national data analytics competition.
- Came up with the idea and led the team as Product Owner: backlog, sprint planning and task delegation.
- Designed a PySpark ETL pipeline integrating DANE, SENA and Ministry of Labor data into PostgreSQL, containerized with Docker.
- Forecast employment trends with time-series models (Prophet), visualized in Power BI and a Next.js app on Vercel.

Python · PySpark · PostgreSQL · Prophet · Power BI · Docker · Next.js

VeriFarmac — Medication Authenticity Checker APK · Code

Tech lead & AI developer · team of 2

- Mobile app built with **Flutter and Dart** that verifies medications by combining barcodes, OCR, AI vision and the INVIMA public API into a single **trust score**.
- Built the AI layer: on-device ML Kit for barcodes and text, and Claude API for packaging analysis, validating each response before weighting it.
- Managed the product in GitHub Projects and applied Clean Architecture; Supabase backend (auth and PostgreSQL), v1.0 shipped as an APK.

Flutter · Dart · Supabase · Claude API · ML Kit · Google Maps · Clean Architecture

MisFinanzas — Personal Finance Manager Demo · Code

Solo developer (full-stack)

- Web app to track income, expenses, savings and debts with category-based reports, designed from my accounting background; deployed with a public demo.
- Spring Boot REST API with a layered architecture and PostgreSQL; Angular frontend.

Java · Spring Boot · PostgreSQL · Angular · REST API

Other projects: Elliot AI, AI sales agent with avatar simulation (Node.js, Python, React).

TECHNICAL SKILLS

Programming languages: Java, TypeScript, JavaScript, Python, Dart, SQL
Frontend & mobile: React, Next.js, Angular, Tailwind CSS, Flutter
Backend & databases: Spring Boot, Node.js, Django, REST APIs, PostgreSQL, MySQL, MongoDB, Supabase, Firebase
Data & AI: PySpark, Prophet (time series), LLM integration (Claude API), AI agents, ML Kit
Analytics & business systems: Power BI, Excel, Siigo, Microsoft Dynamics
Tools & practices: Git, GitHub Projects, Docker, Vercel, Scrum, Clean Architecture
Languages: Spanish (native) · English B2 in progress (English Adventure)

EDUCATION

B.Sc. Software Engineering — Universidad Cooperativa de Colombia · Pasto — In progress · final semester
Talento Tech — Software Development (intermediate) — Colombian Ministry of ICT
Basic Accounting & International Standards — Universidad Mariana · Pasto — Course

AWARDS

- **8th place nationwide (91/100)**, Datos al Ecosistema 2026 competition, Ministry of ICT.
- **Winner**, COMUNA-UCC 2024 Science and Research competition.

WORK EXPERIENCE

Customer Service Representative — Chicken Lilo · Pasto — 01/2024 – 10/2024
Analyzed sales and product performance with **Power BI and Excel**; built management reports and trained new staff.

Store Manager — Mundial de Mangueras y Correas de Nariño · Pasto — 06/2020 – 07/2023
Managed sales, cash, inventory and staff with Excel-based controls; grew the client base and supervised stores in Cali.

Sales Supervisor — Surimportaciones SAS · Cali — 02/2019 – 03/2020
Administered, configured and maintained **Siigo and Microsoft Dynamics**; led sales and accounting after a merit transfer.
